INTERESTS

Movies - Cooking - Camping - Hiking
Outdoors - Gaming

Passionate software developer with over 4 years of experience working in a full stack environment. With the success of deploying a web app supported by back-end services in production, I've been able to hone my skills through the iterative process. Allong the way I’ve gained a great interest and appreciation for interface design to boot. Bringing forth expertise in design, testing and maintenance of web systems.

EXPERIENCE

2017 - Present

Software Developer
Information Engineering Group America (IEG America)
Montreal, Canada

IEG America provides a rich customer experience solution suite for the lounges in the airport space.

- Lead a small team of developers to successfully deploy an admin and analytics portal using **Angular**. The project uses an iterative process and continues to evolve today.
- Work as part of the back-end team to create services and APIs using the **DotNet** stack to support the portal as well as other business cases.
- Work on the Lounge Atlas project where we provide clients a way to sell lounge access and in lounge services to it's customers through an online app. Written in **DotNet Core MVC**.

Jan 2013- May 2013

Junior Web Developer
Kontact Media Web Design & Development
Montreal, Canada

Kontact Media was a small agency based in Montreal, Canada. I worked here for a short time as part of my internship at Vanier College.

- Worked on the in house CMS framework based in **PHP**.
- Worked on various customer websites.
